## **New web based Physician referral now on-line**

Ottawa, Ontario

Family Physiotherapy Centre Inc. is pleased to announce that we have officially launched our web based Physician referral option which empowers Physicians to complete physiotherapy referrals directly from our website.

This process is simple to use and extremely fluid and ensures that referrals are dealt with in a timely manner and significantly enhances the exchange of information between the referring Physician, Family Physio and the patient.

Access to the Physician referral form is easily found on our website's Home Page.

Family Physiotherapy Centre considers it a privilege to be able to work closely with 100's of local Physicians and we believe that this new option is a step in the right direction in terms of making the referral process seamless and value added.
